- 103683 Glue Dots
- 138995 Tear & Tape Adhesive
- Tulle
- Gift for the box – treat, gift card, etc.
- Scrap cardstock (any color) or paper

Project Details:

- Whisper White Cardstock
 - 7/8" x 2-3/4"
 - Scraps for stamping and cutting out flowers
- Calypso Coral Cardstock
 - 3-3/8" x 3-3/8"
- Pear Pizzazz Cardstock
 - Scraps for punching out three sets of leaves
- Tulle
 - Scraps for cutting out two circles with the largest circle die
- Scrap cardstock (any color) or paper
 - Two pieces that are at least 3" x 3"

Instructions:

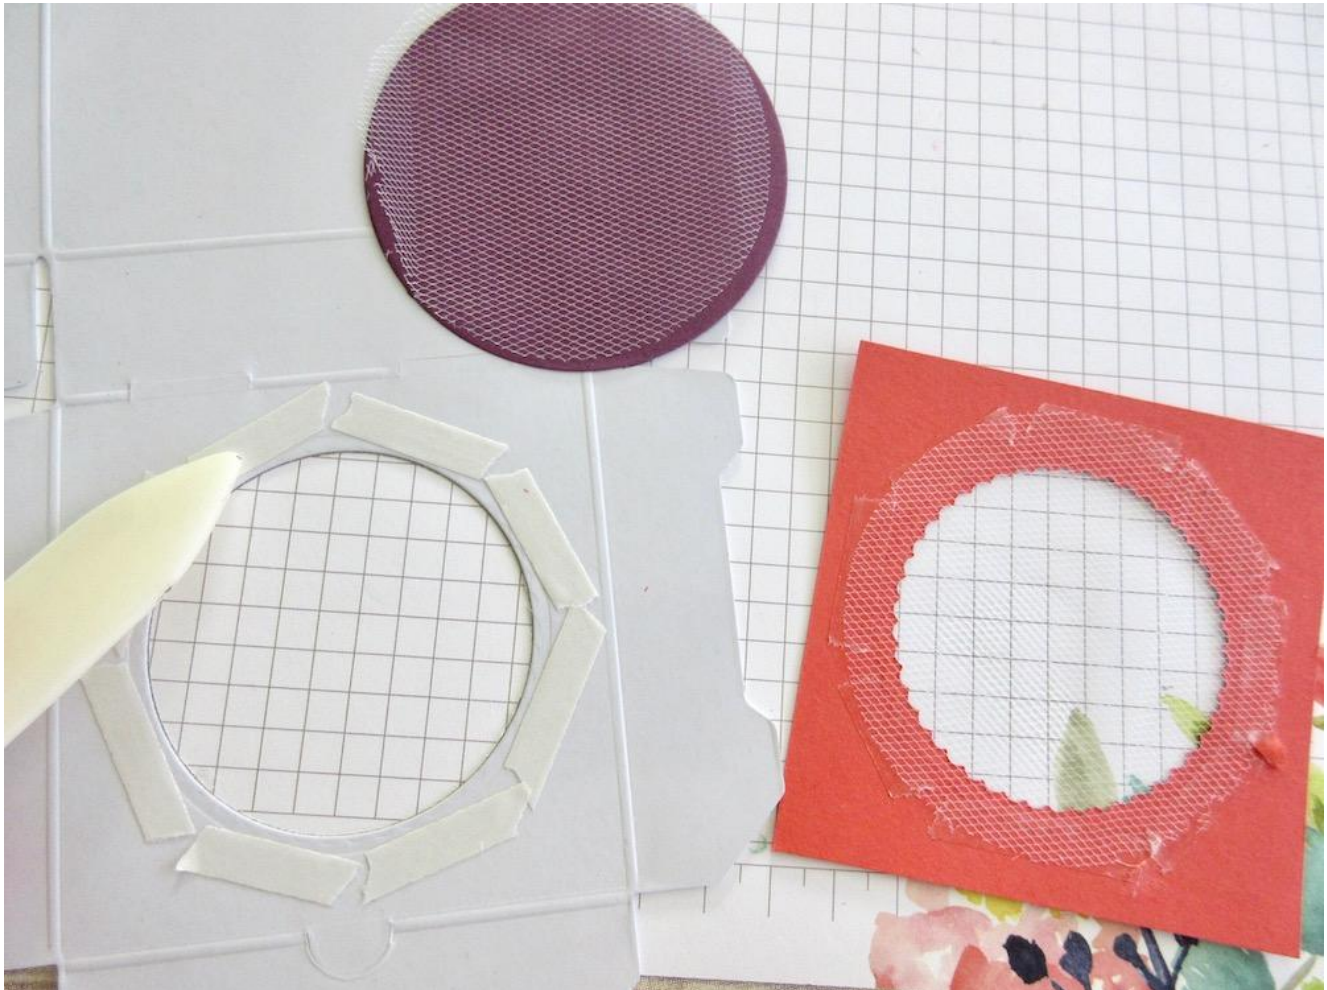

1. Keeping the Mini Pizza Box unassembled, position Calypso Coral Cardstock square over the middle of the backside of the Mini Pizza Box lid area. (The back has crease lines that line up perfectly with the square piece of cardstock.) Place the scalloped circle die (fourth largest in the set) in the center and run both the cardstock and flattened box through the Big Shot to cut the cardstock and make a mark in the box.

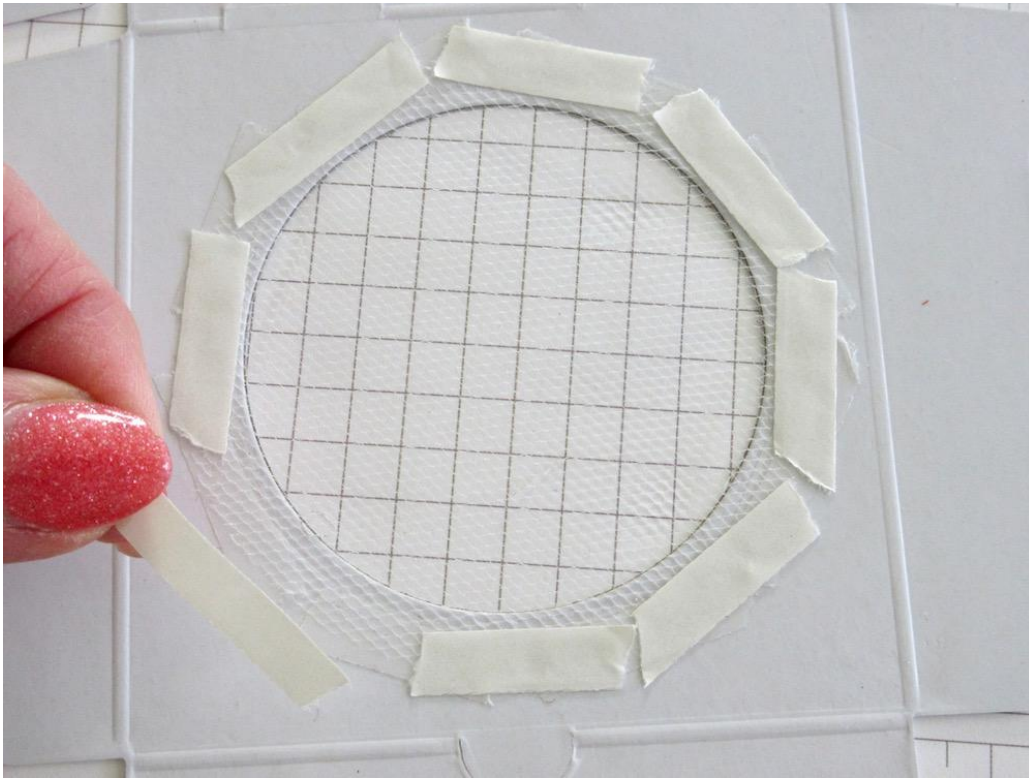

2. Remove the cardstock but take note of which edge lined up with the front of the box. And don't flip it over yet.
3. Then cut the lid with the circle die (third largest in the set) to make a slightly bigger hole. Be sure it's centered around the scalloped circle marks before running it through the Big Shot.

4. Put the Calypso Coral Cardstock square back in place and make sure it's positioned in the correct spot by looking at the front of the box lid. The cardstock should form a nice even "ledge" within the large circle of the box lid.
5. Use the largest circle die and cut two scraps of tulle. It works best to run these through the Big Shot with scrap cardstock underneath them.
6. Lay your pizza box on your work surface, flip over the Calypso Coral layer so you are looking at the backside - the part that will sandwich with the lid to hold the shaker tulle and sequins. (Don't rotate the Calypso Cardstock. This way you can flip it back onto the lid later and everything will line up again.)
7. Add Tear & Tape Adhesive around the center circle "windows" of the lid and the cardstock. Use plenty of tape and keep the pieces close to the window.
8. Use a Bone Folder to burnish the tape to the surface, remove the tape backings, then add the tulle circles. Do this for each: the inside of the Mini Pizza Box lid and the underside of the Calypso Coral Cardstock.

9. After the tulle is covering both windows, add one more layer of Tear & Tape around the window of the Mini Pizza Box lid on top of the tulle. This will help to 'sandwich' the two pieces of tulle together and keep the sequins from falling out. When adding this tape, place the pieces so they overlap halves of the pieces below – like stacking bricks. This will guarantee adhesive around the entire circle.

10. Place Tear & Tape near the outside edges of the Calypso Coral square. This is one more final measure to make sure none of the sequins escape.
11. Then add a pile of sequins in the middle of the tulle on the lid, flip over the Calypso Coral Cardstock, and adhere it exactly between those score lines of the lid.

12. Burnish all over to really secure a strong bond of the tape with the box lid & cardstock.
13. Assemble the box.
14. Stamp flower outline image with Calypso Coral ink onto Whisper White Cardstock scraps – full color for one, stamped-off (second generation) color for the other. Then stamp flower solid image with Powder Pink ink in the center of each flower. Do not stamp off for the second flower. Cut these flowers out with the Paper Snips.
15. Snip the end of the Whisper White 7/8” x 2-3/4” strip to create a banner look. Then stamp sentiment image with Calypso Coral ink so it is centered on the strip.
16. Cut one of the three leaf clusters into one leaf and a set of two.
17. Use Glue Dots and SNAIL to add these pieces and the Pear Pizzazz leaves to the front of the Mini Pizza Box. Be careful not to have adhesive showing through the tulle, because on this type of shaker you’d be able to feel it (plus it doesn’t look as nice).
