## Instructions:

1. Stamp Very Vanilla panel, for the inside of the card, with screw images using Basic Black Ink. Stamp splatter image over the top of the screws using Crumb Cake ink. Adhere the Very Vanilla panel to the inside of the card using SNAIL adhesive.
2. Stamp 4 x 5 1/4" panel of Urban Underground Designer Series Paper with splatter using Crumb Cake ink and adhere the panel and circle to the front of the card using SNAIL adhesive.
3. Stamp the screw driver two times using Smoky Slate ink on Smoky Slate cardstock. Stamp the screw driver handle two times on the Delightful Dijon cardstock using Delightful Dijon ink. Die cut the screw drivers and handles, paper piece them together and adhere them to the card using Stampin' Dimensionals.
4. Stamp two screw heads on Smoky Slate scrap left from die cutting the screwdrivers, set aside.
5. Die cut screws from Silver Foil and die cut the label from both Very Vanilla and Delightful Dijon.
6. Stamp the sentiment on the Very Vanilla label using Basic Black ink. Cut the edge off of the Very Vanilla label and adhere to the Delightful Dijon label. Fussy cut the screw heads that you stamped in step 4 and adhere to either end of the label. Feel free to skip the fussy cutting if you want to just stamp screw heads directly on the label.
7. Adhere label to the card with Stampin' Dimensionals and adhere the screws with Multipurpose Liquid Glue.
