# Instructions

1. Emboss the large vanilla label using the Eyelet 3D Embossing folder then pop it into the Simply Scored Tool. Score on both long sides at 2-1/4". Burnish with a bone folder making the outer wrap for the box.
2. Score and then burnish the vanilla 4-1/4 x 5-1/4" piece using your Bone Folder. Trim according to the template photo above. Assemble the treat tray using Tear & Tape Adhesive. Apply the adhesive to the long tabs inside and the square tabs outside. Bring up the corners to make a box then fold the long tabs in to make a double wall for extra strength.
3. Adhere the tray inside the wrapper using the same adhesive. Be sure to line the tray up to the first score from the right and so that the corners of the tray box are inside the scallops. Your tray should not show at all when the wrapper is closed.
4. Wrap the box with the designer series paper and pinch to mark the creases. Remove the wrap and burnish the folds with a Bone Folder. Punch the curved ends using the Modern Oval Punch. You will insert the ends of the belly band into the punch from the backside. Punch both ends at once to insure they match when the band is on the box.
5. Glue the belly band to the wrap and punch a 1/8" hole through both ends at the same time.
6. Fill with treats and thread ribbon through the holes in the belly band. Tie a bow to close the box.
7. Stamp the single orange on Very Vanilla cardstock using Early Espresso ink. Tap the Embossing Buddy from the Embossing Additions Tool Kit on the Old Olive and the Pumpkin Pie cardstock scraps. Stamp the single orange image on both pieces using Versa Mark ink. Pour white embossing powder over the images, then remove the excess powder. Use the reverse tweezers to heat emboss the images with your heat tool. Let cool completely.
8. Die cut the Pumpkin Pie and Old Olive embossed images, then fussy cut the desired parts of each color cardstock. Paper piece with liquid glue using the Old Olive image as your base layer. Pop the paper pieced oranges on to the box with Stampin' Dimensionals.
9. Stamp the sentiment on the vanilla flag using Night of Navy ink. Punch a 1/16" hole in the end. Thread with tag with Linen Thread and then tie a thread knot. Adhere the tag to the box using a combination of Stampin' Dimensionals and Mini Glue Dots.
10. Embellish using 2024-2026 In Color Shimmer Gems.
